**Step 2 – Trace** OR photocopy all the appliqué patterns from EACH pattern onto the paper side of fusible web sheets. Use a paper-backed, light fusible web for tracing  
– OR –

Use “printable” fusible web sheets with your inkjet printer.

☛ Do NOT trace or photocopy pages 5 & 6 of each pattern.

They are placement guides, NOT appliqué patterns, and do NOT need tracing!

**Step 3 – Fabrics** – use unwashed fabrics (OR washed fabrics, but do NOT add fabric softener in washer or dryer).

TIP: Batiks are *always* best for raw edge fusible web appliqué!

**Step 4 – Cut** your fabric to the size listed on each section of the appliqué pages.

**Step 5 – Fusing** – lay fabric, ☛ RIGHT SIDE DOWN ☜ on ironing pad.

Lay fusible web sheet, sticky side down over fabric.

The paper side that you traced or photocopied will be facing up.

**Step 6 – With a hot iron** (wool or cotton setting), PRESS the fusible web sheets to the fabrics - do NOT slide the iron around, instead “lift and press”.

**Step 7 – After fusing** all the appliqué sheets to your fabrics, Cut out the patterns on the traced lines.

☛ Do NOT peel the paper from the appliqué pieces.

Place the appliqué pieces of the pattern you are making into one ziptop baggie.

**Step 8 – Be sure to bring your appliqué baggie to class, AND any leftover fabric.**

(You never know if you might need a bit more ☺)

See you Soon!
