## “Jump Start” for cutting AND making appliqué for “Cabin at the Lake”

If you have done fusible web appliqué before you may want to get a jump start on the fusing and cutting, HOWEVER, the following directions are *ONLY* if you feel comfortable doing some things on your own.

1. Cutting the “B’s” - Backing, Batting, Borders, Binding and Background.  
Backing & Batting - Cut *each* 32”w x 18”h.  
Borders – *Outside Borders* – cut 2 strips, 2-1/4” by WOF  
Binding – Cut 3 strips – 1 1/2” x WOF (*this is for single fold binding*)  
Background fabrics –  
Cut Sky – 25 1/2”w x 5 1/2”h  
NOTE: You may also cut the “logs” for the five log cabin blocks OR, leave them for class and we’ll do them there!
2. Trace OR photocopy all the appliqué patterns from page 6, onto the paper side of one fusible web sheet. Use either a light fusible web for tracing – OR – use “printable” fusible web sheets with your inkjet printer.
3. Fabrics – use unwashed fabrics (OR washed fabrics, but do NOT add fabric softener).  
TIP: Batiks are *always* best for raw edge fusible web appliqué!
4. Cut your black fabric to 11” x 9”.
5. Fusing – lay fabric, ⬅ RIGHT SIDE DOWN ➡ on ironing pad.  
Lay your printed (or traced) fusible web sheet, sticky side down over fabric.  
The paper side that you traced or photocopied will be facing up.
6. With a hot iron (wool or cotton setting), PRESS the fusible web sheets to the fabrics - do NOT slide the iron around, instead “lift and press”.

⬅ NOTE: if you are using Lite Steam-a-Seam2, you do NOT need to fuse with an iron!  
Use your fingers (or rolling pin) and “press” the fusible sheet to the wrong side of your black fabric.

7. After fusing (or pressing) the appliqué sheet to your fabric, cut out the patterns on the traced lines.  
Place ALL pieces in a ziplock baggie.
8. Be sure to bring all your baggies to class, AND any leftover fabric.  
(You never know if you might need a bit more. 😊)

See you Soon!
