

Sweet Season Quilts

Hanging Sleeves and Hanging Corners

Note: Hanging Sleeves and Hanging corners are made and attached before adding binding.

Hanging Sleeves

Step 1 - Cut fabric for sleeve - Width is the same width of the quilt AND Height is 1" *taller* than the outside border. Example: if height of outside border is 3" before attached, then cut sleeve 4" high.

Step 2 - Fold side edges twice, approx. 1/2" for each fold. Press & stitch along folded edge.

Step 3 - On quilt back, draw a line 1/4" above seam of outside border. Place sleeve, face down, with top edge along line.

Step 4 - Flip quilt over to front. Stitch in-the-ditch between top inside and outside border

Cut fabric, width of quilt AND 1" taller than outside border.

Front of Quilt

Step 5 - From back of quilt, bring sleeve up and even with top of quilt, press. Stitch 1/8" along edge.

Back of Quilt

**Diagrams
NOT to scale**

NOTE: draw line with chalk pencil OR heat or water erasable pen.

Hanging Corners

This type of hanging technique is great for small and mini wall hangings.

1. Start by cutting 2 four-inch squares. Fold each in half, wrong sides together to form a triangle.
2. Place them in top, back corners. Edge stitch in place.
3. Add your binding.
4. Cut a foam board 1½" high, by one inch shorter than the finished width of your wall hanging. Glue a sawtooth picture hanger in center, and ¼" from top edge of board. Slip board under corners.

1. Cut two 4" squares
Fold WST to form triangles

2. Place in top back corners. Stitch in place.

3. Add Binding

4. Cut foam board, add saw-tooth hanger, slip into place.
