✳ If you do not have a walking foot OR appliqué foot – please buy or borrow them! They are <u>required</u> for this class!

✳ PLEASE ✳ PRECUT your Backing Fabric and Batting! 28"w x 23"h" See reverse side for more pre-cutting!

# "Jump Start" for cutting AND appliqué for "Campfire Tails"

## NOTE:  This sheet is NOT the pattern!  It's for use prior to the class!

## Step 1- Cutting the "B's" – Backing, Batting, Borders, Binding and Background.

| | |
|---|---|
| Backing fabric & Batting | cut 28"w x 23"h _each_ |
| Inside Border | cut two – 1-1/8" x WOF (at least 42") |
| Outside Border | cut two - 3" x WOF |
| Binding | cut three – 1-1/2" x WOF (for single-fold binding) |
| Background     Navy Blue – cut 19"w x 14"h | |

> _If you have done fusible web appliqué before you may want to get a jump start on fusing and cutting, HOWEVER, we can do this in class._
> _The following directions are ONLY if you feel comfortable doing some things on your own._

NOTE: not all paper backed fusible webs are created equal!  The following are the ones that we have used and know work well – We cannot guarantee the success of any others. So we recommend one of these . . . Lite Heat & Bond, Soft Fuse or Flexi-Fuse.

**Step 2** - Trace OR photocopy all the appliqué shapes from pages 2, 3, 4, & 5 onto the paper side of Fusible web sheets.   Use either a light fusible web for tracing – OR – Use "printable" fusible web sheets with your **inkjet** printer.
☛ Cut apart the sections of the fusible sheets on the dashed lines. ☛
☛ Do NOT trace or photocopy pages 6 &7
Those are placement guides and not appliqué pages!

**Step 3** - Fabrics – use unwashed fabrics (OR washed fabrics, but do NOT add fabric softener).
TIP:  Batiks are _always_ best for raw edge fusible web appliqué!

**Step 4 -** Cut your fabric to the size listed on each section of the appliqué pages.

**Step 5 -** Fusing – lay fabric, ☛ RIGHT SIDE DOWN ☛ on ironing pad.  Lay fusible web sheet, sticky side down over fabric.   The paper side that you traced or photocopied will be _facing up_.

**Step 6 -** With a hot iron (wool or cotton setting), PRESS the fusible web sheets to the fabrics.
Approximately 6to 8 seconds.   Do NOT slide the iron around, instead "lift and press".

**Step 7 -** After fusing all the appliqué sheets to your fabrics, cut out the shapes on the traced lines.
TIP: for tiny pieces, cut a quarter inch margin around the shape; you'll cut them out completely in class!
☛ Do NOT peel the paper from the back of the appliqué shapes.

**Step 8** - Separate cut out shapes according to their "part number", NOT by color!
Example all "B" shapes in the "B" baggie, all "CF" shapes in a "CF" baggies, etc, etc.
Place appliqué  shapes without part numbers in one large baggie.

Be sure to bring your baggies to class, AND any leftover fabric!
(You never know if you might need a bit more.) ☺
