“Jump Start” for cutting AND making appliqué for “My Up North Window”

* Note: if you purchased a kit with pre-printed fusible web sheets – skip step 2 *

Step 1 – Cutting . . . Backing, Batting, Binding, Borders & Background

Backing & Batting - Cut *each* 36”w x 20”h, set aside.

Inside Borders – cut 3 strips – 1” x WOF

Outside Borders - cut 3 strips – 3”x WOF Binding – Cut 3 strips – 1½”x WOF (*this is for single fold binding*)

Cut the following fabrics AND place in baggie labeled “background”. . .

___ Sky fabric 28”w x 5½”h ___ Lake water fabric – 28”w x 7½”h

If you have done fusible web appliqué before, keep going with steps 2 thru 9,
HOWEVER, we can do these steps in class.

The following directions are *ONLY* if you feel comfortable doing some things on your own.

Step 2 – Trace OR photocopy all the appliqué patterns from pages 3 thru 8 onto the paper side of fusible web sheets. Use only a paper-backed, light fusible web.
– OR – Use “printable” paper-backed fusible web sheets with your *inkjet* printer.

Step 3 – You will need to cut the sheets apart on the dashed lines before going to step 4.

☛ Do NOT trace or photocopy page 9 & 10.

Those pages are placement guides, NOT appliqué patterns, and do NOT need tracing!

Step 4 – Fabrics – use unwashed fabrics (OR washed fabrics, but do NOT add fabric softener in washer or dryer).

TIP: Batiks are *always* best for raw edge fusible web appliqué!

Step 5 – Cut your fabric to the size listed on each section of the appliqué pages.

Step 6 – Fusing – lay fabric, ☛ RIGHT SIDE DOWN ☛ on ironing pad.
Lay fusible web sheet, sticky side down over fabric.

The paper side that you traced or photocopied will be facing up.

NOTE: the treeline, middle mtns, & high peaks should be fused as ONE piece, see directions, pgs 3,4 & 5.

* NOTE: some fusible web sheets do NOT need to be ironed to the fabrics *

Instead they only need to be PRESSED by hand (ex: Lite Steam-a-Seam2) –

Always read the instructions that accompany your fusible web!

Step 7 – With a hot iron (wool or cotton setting), PRESS the fusible web sheets to the fabrics - do NOT slide the iron around, instead “lift and press”.

Step 8 – After fusing all the appliqué sheets to your fabrics, Cut out the patterns on the traced lines.

☛ Do NOT peel the paper from the appliqué pieces.

Place the appliqué pieces into ziptop baggies according to their “part” number.

Example, all “B” pieces in one baggie, and all “D” pieces in another baggie, etc., etc..

Pieces without a part number may go in one large baggie.

Step 9 – Be sure to bring your appliqué baggie to class, AND any leftover fabric.

(You never know if you might need a bit more ☺)
